

NANOLITE FRIO CORELESS

General description

NANOLITE FRIO Coreless is a high performance pre stretch coreless pallet wrap film, available for either hand or machine application. NANOLITE FRIO Coreless is incredibly thin, yet exceptionally strong and is designed to reduce unit pallet wrapping cost.

Typical film properties – 100% LLDPE

Typical film properties for NANOLITE FRIO Coreless can be found below:

Property	Units	Test Method	7 mic
Dart Impact	g	ASTM D 1709A	136.9
Elongation at brake MD	%	ASTM D 882	49
Elongation at brake TD	%	ASTM D 882	396
Puncture	mm	ASTM D 5748	51
Elmendorf MD	N/mm	ASTM D 1922	59.3
Elmendorf TD	N/mm	ASTM D 1922	241

Coreless Availability

NANOLITE FRIO Coreless is available in a variety of specifications, as detailed below:

Thickness (mu)	Yield (m2/kh)	Width (mm)	Coreless Diameter (mm)	Nominal Length (m)	Film Wt (kg)
7		390	50	600	1.506
7		390	50	300	0.753

These are typical test results from random samples of film and are not to be construed as specification data
